

## In A Spiral

Phantogram

I'm a meme on a feed in a spiral  
Imitate, elevate, making heads roll  
Every day, every day, in a spiral  
Every night, dancing with my shadow  
Run away to the shade in a spiral  
Imitate, elevate, watching heads roll

I can see the end is coming round  
Every day, every day, in a spiral  
Better help me now, I'm going down  
Every day, every day, in a spiral

I'm a void in a hole in the hollow  
Fantasy on a feed wanna follow  
No mistake, catch a break with your high hopes  
Okay, okay, put you in a K hole

I can see the end is coming round  
In a spiral  
Better help me now, I'm going down  
Every day, every day, in a spiral

When did I get home?  
Around and around it goes  
Am I all I know?  
But you still keep calling  
Where did my time go?  
All around and around it shows  
I am all I know  
But I still keep falling

I can see the end is coming round  
Every day, every day, in a spiral  
Every day, every day  
Better help me now, I'm going down  
(Every day, every day) in a spiral  
(Every day, every day) in a spiral
