

Into Happiness

Phantogram

There I go
There I am
A life of gold
How long I've been driving

Fall into happiness
Wish you could be here
No more loneliness
You'd make it perfect

There I go
Life might get cold
A life of gold
Funny how things roll

Fall into happiness
Wish you could be here
No more loneliness
You'd make it perfect
Fall into happiness
Wish you could be here
No more loneliness
You'd make it perfect

Everything is changing
Sorry I've been missing
Down a road I've left behind
Everything is clearer now
I've been getting better
How could I have been so blind?

Into happiness
Wish you could be here
No more loneliness
You'd make it perfect
Fall into happiness
Wish you could be here
No more loneliness
You'd make it perfect

Everything is changing
Sorry I've been missing
(Wish you could be here)
Down a road I've left behind
Everything is clearer now
I've been getting better
(You make it perfect)
How could I have been so blind?

Wish you could be here
You'd make it perfect
