Phantogram

Air. Never ever seemed so far away.
And the eye of a hurricane, eyed. And I tried.
Death. Never have I seemed so touchable.
I'm a dart caught in your cables eye. And I tried.

(I won't leave, I won't leave, I won't leave, I won't)
Keep yourself alive
(I won't leave, I won't leave, I won't leave, I won't)
Keep yourself alive
(I won't leave, I won't leave, I won't leave, I won't)
Keep yourself alive.
(I won't leave, I won't leave, I won't leave, I won't)
For a minute...
(I won't leave, I won't leave, I won't leave, I won't)

So brave, will you wanna hurt your face tonight.
In a hall walking to the bright light, dissect belt.
Chafe me, cause you know it's not the end of us.
I'll be gone until you get it right.
Impossible, impossible, impossible.

(I won't give, I won't give, I won't give, I won't.)
Keep yourself alive
(I won't give, I won't give, I won't give, I won't.)
Keep yourself alive
(I won't give, I won't give, I won't give, I won't.)
Keep yourself alive.
(I won't give, I won't give, I won't give, I won't.)
For a minute...
