

News Today

Phantogram

I saw you on the news today
You was alive
You was just healthy and on your way
And I was happy
And I was happy too

Tomorrow I turned on the radio
Realized I never made it to your first show
And I would be gone
And I'd give anything

In a different place
In a different shape
In a different shade
And a different shame
In a different place
In a different shade
Different shame different place

I saw you on the news today
You was alive
You was just healthy and on your way
And you was happy
And I was happy too
