

Pedestal

Phantogram

You can make a hospital lovely
I'm not afraid of the scars, they ain't ugly
I can heal it all if you're lucky
Open up, baby, you gotta just trust me

'Cause I was in love with you
Is that what you're supposed to do?
When I put you on this pedestal
Is that what you're supposed to do?
Is that what you're supposed to do?

We can hide underneath all the covers
You know reality's just cold without each other
Lucid dreams that we can discover
We can't pretend that we see the same colors

I realize I have to choose
Scratchin' at the door outside
I could walk away or stay
You ain't givin' up a fight

'Cause I' was in love with you
Is that what you're supposed to do?
When I put you on this pedestal
Is that what you're supposed to do?
Is that what you're supposed to do?

(Is that what you're supposed to do?)
(Is that what you're supposed to do?)

When I put you on a
'Cause I was in love with you
Is that what you're supposed to do?
When I put you on this pedestal
Is that what you're supposed to do?
Is that what you're supposed to do?

You can make a hospital lovely
