

Hangin' On

Phantom Blue

I've traveled down this road and it seemed to me
I've been hiding for too long set me free
Like a story being told to me
One look in your eyes and I knew it would have to be

(Pre chorus)

Now we must go our own ways
Time will tell the price we pay
Flame runs on into the night
Without you I'll lose my mind

(Chorus)

And when the fire's gone
Will we keep hangin on?
Or will we just let go?
Will we keep hangin on?

Took me there to that sacred place
Child-like smile filled that empty space
How I pray we never drift apart
Cause I'll always hold you close in my heart

(Pre chorus)

(Chorus)
