

# Out of Control

Phantom Blue

Out in the distance  
Outside my door  
Seems like the world is burning  
Out of control, don't cha know  
First they try to teach me  
To play their games  
If I live by their rules I know I'd  
Surely go insane  
This world's to blame

So we've got to find a way  
Look deep in our minds  
How can the world go on  
Blind leading blind?

Out of control  
This can't go on these games we're playing  
Out of control  
What can be done?  
This world is out of control

Systems failing  
Breaking down in time  
Looks like we're really not such  
Clever minds, no not my kind  
Feel it coming deep in the night  
The life I'm living could fill me  
Fill me with fright
