

# All Over Again

Phantom Planet

Your crash is waiting to happen  
And you you're dragging me down

All over again  
I give in I give up

You splashed but you started sinking  
And you you're dragging me down

All over again  
I give up  
I give in  
I give up

You are crowding me in I want to get out  
This is the end all over again  
You're crowding me in I just want to get out  
This is the end all over again
