

# Balisong

Phantom Planet

Balisong, sweet balisong  
I'm gonna keep her in my pocket  
Till the right time comes along  
I got my balisong in my pocket so long  
And when I need her don't you know  
She's gonna sing that sweet song

Listen mother, mother  
Hey mother, stop your nagging  
'Cause you know it doesn't matter to me, no  
I don't believe it when you say a word about my baby  
If it's true, then only she could tell me so

I said, "No!"  
You know you lost her, now she's with somebody new  
Playin' with someone in the shadows  
Runnin' with the shadows

Butterfly, sharp butterfly  
She might be pretty, but be warned  
That when she cuts, she makes 'em cry  
I got my butterfly, always hiding by my side  
And if you need her, don't you know  
She'll shine her way into your eyes

So, listen brother, brother  
Hey brother, stop your bragging  
'Cause you know it doesn't matter to me, no  
I don't believe it when you say a word about my baby  
If it's true, then only she could tell me so

I said, "No!"  
You know you lost her, now she's with somebody new  
Playin' with someone in the shadows  
Runnin' with the shadows

No one in the windows  
Only where nobody knows  
Yeah, only in the shadows  
I know because she told me so

So, listen mother, mother  
Hey mother, stop your nagging  
'Cause you know it doesn't matter to me, no, no, no  
I don't believe it when you say a word about my baby  
If it's true, then only she could tell me so

I said, "No!"  
You know you lost her, now she's with somebody new  
Playin' with someone in the shadows  
Runnin' with the shadows

No one in the windows  
Only where nobody knows  
Yeah, only in the shadows  
I know because she told me so  
I know because she told me so

I know because she told me so  
I know because she told me so

I know because she told me so (Told me so)  
I know because she told me so (Told me so)  
I know because she told me so (Told me so)  
I know because she told me so (Told me so)  
I know because she told me so (Told me so)  
I know because she told me so (Told me so)  
I know because she told me so (Told me so)  
I know because she told me so (Told me so)  
I know because she told me so
