

## Dear Dead End

Phantom Planet

Dear Dead End, I met your road  
With the only feet I know  
Who led me through all your turns  
'Til there was nothing left to learn  
So we came to a stop  
There was nowhere left to walk

Where do we go from here?  
Here where the street declines  
Only one way is clear  
It's the only light that shines  
Pointing back through the years  
Where do we go from here?

Dear Dead End  
You became my closest friend  
I followed you down so far beyond  
The places I'd already gone  
Till we came to a stop  
It looks a lot like my old block

Where do we go from here?  
Here where the streets decline  
Only one way is clear  
It's the only light that shines  
Pointing back through the years  
Tell me, where do we go from here?

You turn  
You turn  
Turn  
You turn turn turn

Dear dead end, I met your view  
With the only feet I knew  
Thanks for showing me the way  
First, for leading me astray  
How we stop and how we start  
How we all get torn apart

Where do we go from here?  
Here where the streets decline  
Only the past is clear  
It's the only light that shines  
Pointing back through the years  
Tell me, where do we go from here?  
Where do we go from here?  
Where do we go from here?  
I gotta leave you here
