

Don't Get Down

Phantom Planet

I wanna live on the moon,
Never see a human again,
And as the earth explodes,
I'll light a candle for my dead best friends
I don't enjoy this place,
My best friends are so mean
I look up to the sky when I am sad,
cuz the planets don't get down on me
I just want to fall asleep,

I wanna live on the moon
Never see a human again,
and as the earth explodes,
I'll light that candle for my dead best friends,
I look up to the sky when I am sad,
cuz the planets don't get down on me

I just wanna fall asleep
and dream of a place that's warm,
I just wanna fall asleep
and dream of a place that's warm, oh yeah..

I look up to the sky when I am sad,
cuz the planets don't get down on me
