

I Got Love

Phantom Planet

I look out my window
Into an empty street
Wonderin' if the pavement
Would be too hard to me

Been waitin' here forever
But maybe just today
You told me on the telephone
That you'll be on your way

I got love, I got love
I got nothing without you

My whole life, looked out this window
Know what I was searching for
Now, I can close the curtains
To you right before

I got love, I got love
I got nothing
I got love, I got love
I got nothing without you

I got the time without you
I never was, now

I got love, I got love
I got nothing
I got love, I got love
I got nothing
I got love, I got love
I got nothing
I got love, I got love
I got nothing without you
