

Maybe You Still Call It Christmas

Phantom Planet

Here's the end of the year song
If you want it to be
We had our ups and downs I know
But could you still sing along with me

And a handful of days
Will be a year away

Maybe you still call it Christmas
But it's not the word for me
Call it love, call it forgiveness
Maybe you and me could set it free

So it's the end of the year song
There's been no time to breathe
We've been singing different lines now
No room for harmony

Could we dream love or holiday
Just you and me can celebrate

Maybe you still call it Christmas
But it's not the word for me
Call it hope or call it kindness
Or an answer to your plea
Maybe you and me could set it free

A word can change what we believe
Can't you see?
Overnight so suddenly

And maybe you still call it Christmas
But it's not the word for me
Call it love, call it forgiveness
It can set you free
Maybe you and me
The love in your heart I do believe
Could set us free

So set it free
