

Only One

Phantom Planet

Loneliness can kill ya
In some ways you'd never guess
There I was drivin' down some memory
Racing towards an end out west
When a light burst on the highway
And I thought I heard your name
If it was only in my head
Well, I heard it just the same

My only one
You gotta be the only one
Whoa, but the night's still young
You gotta be my only one

Chaos can consume ya
Spit ya out of time and space
Don't know how long I've been in exile
From the warmth of your embrace
But I've rolled these windows open
And it's you I'm heading for
'Cause now I know I need you more
Than I ever did before

My only one
You gotta be the only one
Whoa, but the night's still young
You gotta be my only, only one

Only one
Only one
Only one
Yeah, yeah
Only one
Only one
Only one
Yeah, yeah
Woo!

My only one
Lord, let me be the only one
Whoa, when the driving's done
You gotta be my only, only one
You're my only, only one
I hope I'm not the only lonely one
But now, the change has come
You gotta be my only, only one

Yeah, only one
Only one
Only one
Yeah, yeah
Only one
Only one
Only one
Yeah, yeah
Only one
