

Shadows

Phantom Planet

Hell
Hell is a thought you uncover
Madness you've yet to discover
It's over
It's a long, long way from home

When the lights go out
Our shadows sit in silence

Don't
Don't close your eyes for an instant
When it's all gone, you might miss it
This is it
It'll all be over soon

When the lights go out
Our shadows sit in silence

When the lights go out
Our shadows sit in silence

When the lights go out
Our shadows sit in silence

When the lights go out
Our shadows sit in silence
