

## Turn Smile Shift Repeat

Phantom Planet

Here they come the business men like a herd of cattle rumbling  
in  
The exchange has officially begun  
Now all the offices are buzzing the executives are busy bees  
They watch the gears turn in the employees  
They just Turn Smile Shift Repeat  
There's a crowd forming on Wallstreet near the tallest building  
on the block  
A suit has lost his fortune to the stocks  
There was no time to see his fatal flaw the madness set in with  
the loss  
Now he cuts at throats to watch the heads fall off  
They just Turn Smile Shift Repeat

Decimal points and dollar signs taxes penalties and fines  
He's come to cut you down  
Numbers passwords protocol it's not enough to save your soul  
He's come to cut you down  
Bring you right back to zero  
They just Turn Smile Shift Repeat
