

## Evilize

Phantom

Dark eyes she don't need the light  
Come stealing through the night  
Feel it everywhere - evil's in the air  
The hell is in her eyes  
My sin is her delight

You evilize everything you touch  
You evilize

Carnivore for blood you lust  
With a swift and savage thrust  
Feel it everywhere magic's in the air  
The hell is in her eyes  
My sin is her delight

You evilize everything you touch  
You evilize - I'm loving it too much  
You evilize - you got me hypnotized  
You evilize come on and hold me tight

Feel it everywhere - evil's in the air  
The hell is in her eyes  
My sin is her delight  
You evilize everything you touch  
You evilize - I'm lovin' it too much  
You evilize - caught in your spell  
Evilized - take me straight to hell
