

Turbocharged

Phantom

You got my engine racing
My love is turbo charged
Ignite my nitro with your spark
A fuel injected lover
Racing for the Stars
You got me running hot now
My love is turbo charged

You got my pistons pumping
A love machine in high
You got me reviving up tonight
High combustive lovers
Burning up the sky
You got me running hot now
My love is turbo charged

I'm gonna be your alloyed lover
A love machine in metal cover
We're gonna heat up every night
Tempered steel in red hot casing
Two motors upward racing
Together we'll ignite the sky

You got me running hot now
My love is turbo charged
My love is turbo charged
You got me running hot
