

What She's After

Phantom

How many times
have I heard the lie
All night scene
Callin one more time
You got me so I don't know
Bleeding the soul outta me
Love's not what she's after

So many times
So many times I tried
A fool left for dead
Coming back for more
You got me so I don't know
Bleeding the soul outta me
Love's not what she's after
