

Just A Feeling

Phantoms

I know what's going on
Please don't say a word
Everything I want, will I ever learn?
When the lights go out
There's no time to think
A kiss and I'm gone
Full of dreams was never
Who she seems when you're together
Made you believe she was better
Got under your skin cause you let her

Something that I should tell you
There's something that you should know
This is just a feeling
I wish it could be more

I don't have the time
Never found a way
Every time I'm close, I try to escape
Always on my mind
Always in my face
A kiss and I'm gone
Lying, keep it together
Looking for something better
I can't do this forever
Baby, it's now or never

Something that I should tell you
There's something that you should know
This is just a feeling
I wish it could be more

This is just a feeling
Is this just a feeling?
This is just a feeling
I wish it could be more

Something that I should tell you
There's something that you should know
This is just a feeling
I wish it could be more

This is just a feeling
This is just a feeling
This is just a feeling

Never felt before
