

Moonlight

Phantoms

Twilight
And I see you walk across the room
Catch your fever
Oh, there's something pulling me to you

Now we're rolling with the waves
Like lovers do
Come on run into the night
We're 'bout to lose

I wanna be dancin', dancin', dancin', dancin'
Underneath the moonlight
Get lost in all the flashing lights
Cause when they die we only got the sunrise

And all I wanna think about
Is thinkin' bout nothing with you
I wanna keep on dancin', dancin', dancin', dancin'
Underneath the moonlight

Midnight
Got your body moving right with mine
Don't ask me any questions
Cause I came here to lose my mind

Now we're rolling with the waves
Like lovers do
Come on run into the night
We're 'bout to lose

I wanna be dancin', dancin', dancin', dancin'
Underneath the moonlight
Get lost in all the flashing lights
Cause when they die we only got the sunrise

And all I wanna think about
Is thinkin' bout nothing with you
I wanna keep on dancin', dancin', dancin', dancin'
Underneath the moonlight

And all I wanna think about
Is thinkin' bout nothing with you

And all I wanna think about
Is thinkin' bout nothing with you

So I was standing there, just having a good time
And this guy walks in and he has the most beautiful eyes
And we're talking and I'm thinking all I wanna be doing with you
I just wanna be dancing

I wanna be dancin', dancin', dancin', dancin'
Underneath the moonlight
Get lost in all the flashing lights
Cause when they die we only got the sunrise

And all I wanna think about

Is thinkin' bout nothing with you
I wanna keep on dancin', dancin', dancin', dancin'
Underneath the moonlight
