

# Only You

## Phantoms

Steady as we go  
From the night till day  
Skies turn from black to gold  
Together we have roamed  
From another place  
We fell in from another world

And I feel like we've been gone for so long  
These dreams, they're havin' me trying to hold on  
Reaching out, are you still there?  
I hear you calling out my name

Only you  
It's only you  
Can get me through

Rushing when I breathe  
And the colors spin  
Your heart beat pull me closer in  
It's always you and me  
On a tidal wave  
Drifting out to sea

And I feel like we've been gone for so long  
These dreams, they're havin' me trying to hold on  
Reaching out, are you still there?  
I hear you calling out my name

Only you  
It's only you  
Can get me through
