

Pulling Me In

Phantoms

You sent me the tone outside
You push me away, I want it now
We communicate our problems
By cutting it short when we're insecure

You know what gets under my skin and
I suffered in the cold this summer, why?

You're pulling me in
You're pulling me under
If I couldn't swim
Would you get in the water?
You love for me, crush for me
But then you're off with me
Crawl on me, fall on me
You're pulling me in
You're pulling me under

You and your navy jacket
Making those eyes I've seen before
About to decide what's coming
You're a hell of a con for twenty-four

You know what gets under my skin and
I suffered in the cold this summer, why?

You're pulling me in
You're pulling me under
If I couldn't swim
Would you get in the water?
You love for me, crush for me
But then you're off with me
Crawl on me, fall on me
You're pulling me in
You're pulling me under

You're pulling me in
You're pulling me under
If I couldn't swim
Would you get in the water?
You love for me, crush for me
But then you're off with me
Crawl on me, fall on me
You're pulling me in
You're pulling me under
