

## Scream

Pharoahe Monch

Comstock cell block shit, cops are minimal  
Rock your snot box top notch, watch for sentinels  
Hide like Sasquatch squat, the revenue drop  
Pull out Glocks hot spot, pop your genitals - Pharoahe  
Generally a general for generations of jams generated for criminals  
Retractable claws cut country club cardigans  
Both parties party with me, bipartisan  
Kick start a starter kit, pull out dick on a charlatan  
In Harlem when you're romancing these hoes like Harlequin  
Listen, my cock'll leave 'em in a coma  
But the Glock'll leave you messy like you play for Barcelona  
You are now working with a renowned  
Master with mastery over conjugated verbs and nouns  
Yo, you are now working with a renowned  
Master with mastery over conjugated verbs and nouns  
Go!

Civilian sings, I drink, I lean  
I see dead people when I dream  
This war with self is so extreme  
Sometimes I think I need to - scream  
This war with self is so extreme  
Sometimes I think I need to  
Scream, scream, scream

Press your luck, fuck a press kit, press can't harm me  
But chest presses a deadlift, bench press zombies  
Hysteria rap burn the flag, fuck America  
Start the revolution, poison the water with malaria  
Fuck it, I came back from the war of scorn  
Like Uncle Ruckus throwing bananas on the White House lawn  
Cryptic anarchists spit that apocalyptic dark shit  
Communists, radicals, racism, Marxist  
You couldn't possibly wanna lock horns  
Spit holy water on your throne wearing a crown made of thorns  
(Ouy Kcuf!) - just thought I should say that  
Every rhyme is like a time bomb strapped beneath your Maybach  
Cop the range, stop the strange, lock the game, rock the chain  
Stop the train, smoke a fag, pop your brain  
Unless you can inject me in your arm like a narcotic and squeeze  
Please never say my name in vain, let's go

Civilian sings, I drink, I lean  
I see dead people when I dream  
This war with self is so extreme  
Sometimes I think I need to - scream  
This war with self is so extreme  
Sometimes I think I need to  
Scream, scream, scream
