

## Prequel Outro

Pharrell Williams

Know what I'm sayin'? That's what it is. Right here was an expression of my heart. But it was basically like, you know, a reflection of the past, like, pre-, uh, pre-this album. But this album, that, you know what I'm sayin', that I'm about to put out, that y'all goin' go get. It's called "In My Mind". And, it's just music, my nigga. It's jus-it's just music. You just put that shit on, you know what I'm sayin'? You listenin' to the rap shit, that shit that you could just drive and reflect on your life. Might lose a few tears and shit just because, you can fuckin' relate. Or it's just, you know, you know, the regular feelin' good, flossy shit, pullin' up and you know what I mean? And, and makin' your fuckin' statement to the world. But then there's like the R&B shit that just like, you could put that on for your girl or you could put that on and feel right in the fuckin' club an-an-an-and get your girl, you know what I'm sayin'? Or you goin' through somethin' with your chick, you could play this shit, like this is what this is. This is what I'm preparin' you for. I needed to get that out of my system, and I needed to fuckin', let you step on a rung. The rung is, is, is a step in a ladder. I needed you to step on the first rung to understand where the fuckin' top of the ladder is headin' to and that's my album. You know what I'm sayin'? And so, once again, it's the kid, Skateboard P, AKA Cloud Hopper, AKA fuckin', uh, Billionaire Boys Club, ICECREAM uh, BAPE family, from here to Tokyo.
