Amethyst

Phase

And then
Light will shine bright again
It will show us the lane
We'll learn...

Till when
Will we stay with that burn
Making straight every turn
And I yearn

Of being free
To touch what's kept for me
Flowing in that sea
Bearing the Amethyst key

The rain
Will help wash of the stain
What's not broke under strain
... Regained

Still dying in creed Spent what's left of me To make you see And pass you the Amethyst key
