

Help You

Phatfish

Why do you put your trust in
such shallow things
you're told that they will bring you love
you should know better
there is more than this

you maybe once have known me or maybe not
but i have known you since before your time began
meet the creator of man

i can't help you
if you can't look at yourself
i can't heal you
if you not somewhere else
let me love you
