

# Still The Night

Phenomena

You didn't have to run from me  
Coz I am the one, you know it  
You should have took the time you see  
You know I am the one, don't blow it

You know you've got the combination  
You've got the moves that could change  
a nation  
All you need is some understanding  
You know it's right, don't you know it's

Still the night  
What are you running for  
Still the night  
All the love I have shown you  
Still the night  
What are you running for  
Stilll the night  
All the love I have shown you

I said I'd give it all to you  
But you gave a look right through me  
I've never told you what to do  
I trust in your love, can't you see

You know you've got the combination  
YSou've got the moves that could change  
the nation  
All you need it's right, don't you know it's  
Still the night  
What are you running for  
Still the night  
All the love I have shown you  
Still the night  
What are you running for  
Still the night  
All the love I have shown you

All alone in your city  
In this world without pity  
Don't you know it's still the night  
Don't you know it's

Still the night  
What are you running for  
Still the night  
All the love I have shown you  
Still the night  
What are you running for  
Still the night  
All the love I have shown you
