

# Beyond The Shadow Of Doubt

Phideaux

[Look what we've done  
We've raised the stakes  
The serpent has come  
Oh, I feel it now  
As surely as the shadow Of an owl]

Stole the raven into my sweet dreams  
Like a cloud coming down  
Disturbed my slumber like some kind of fiend  
Rising up from the ground  
And the signs will lead us in time  
Will lead us in time...  
Don't leave us behind  
Just lead us in time  
In time  
Angels stormed through my mind like a swarm  
Rushing in from the rain  
A chorus calling, the voice so appalling  
Predicts a great change  
And in time the omens divine  
Emerge from behind  
To burst from the mind  
Reveal the design  
To lead us in time, lead us in time  
Towards the sublime  
Just lead us in time  
In time  
[10, 9, 8, 7, 5, 4, 3, 1]  
And the signs will lead us  
In time lead us  
And time will lead us  
In time lead us...  
Look  
What we've done  
We've raised the stakes  
The Serpent has come  
There  
Can't you see?  
The cards reflect it most emphatically  
Oh, I feel it now  
As surely as the shadow of an owl  
What can we do?  
Imperilled is the paradise to doom  
Oh, so many trees  
Like lovers' lips locked eternally  
But wait  
Beware the saws  
They're scratching out the forest with their claws  
Time will lead us in time...
