

Universally

Phideaux

Now is the time I choose to go
It is my time I know
For a voyage like a dream
From the days spent you and me]
Yes I have, yes I heard, yes I know
You must go
Yes I love you, yes I'll always be your friend
Through the grave
So I take you out to sea, ashes for the universe
Universally...
Now you are free
Where am I now?
Baby a rain came tonight
And it seemed you'd returned
Down the river's way
Baby I'm running from the room
I get right inside the garden
Try to find you, try to find you
I wander to the ground, to the ground
My soil, it is you
Our garden stems from you, from you
My soil, you are true
I garner strength to carry on from you
My soil, my bloom
From sea you flew
To mist from sky
Your kiss arrived
And so
The awareness of you
In the darkness
Gets me high
My heart
In the darkness
Gets me through
In the darkness
Gets me high
In the darkness...
