

## For A Little While

Phil Vassar

Hot sun dancin' on the river  
We're sittin' on the bank and watch the world go by  
Our feet in the water she pressed her lips to mine  
We were so long on love but short on time

She could be a honeymoon sweet and a little wild  
But she was mine oh, for a little while

And I laugh every time I start to think about us  
We sent that summer out in style  
And she's gone but she let me with a smile  
'Cause she was mine for a little while

We'd take a ride and head on down to airport road  
Put the seats back watch the planes leave town  
She always said nobody's strong enough to tie her down  
Oh but I wasn't lookin' for that anyhow

I knew she'd leave but I didn't know when  
It matters to me now oh but it didn't back then

And I laugh every time I start to think about us  
We sent that summer out in style  
And she's gone but she let me with a smile  
'Cause she was mine for a little while

I keep seein' pictures now of me and her  
And those summer nights  
My mind fills with her, oh but it's alright  
'Cause I laugh everytime I start to think about us

We sent that summer out in style  
And she's gone but she let me with a smile  
'Cause she was mine for a little while  
Yeah she was mine for a little while
