

Like I Never Loved Before

Phil Vassar

I guess I gave myself to someone
Maybe a time or two
I tried, I went through the motions
What was I supposed to do
I spun my wheels, I wasted so much time
And then with you I finally got it right

It's like I never loved before
Like I never saw the sun
Or felt the rainfall on my face
It's like it's never ever been
I can't imagine life without you anymore
It feels just like I never loved before

I never talked about forever
Now it's not long enough
Who's that guy lookin' in the mirror
Cause it's not the man I was
I only know I tremble when we kiss
I'm making up for everything I missed

It's like I never loved before
Like I never saw the sun
Or felt the rainfall on my face
It's like it's never ever been
I can't imagine life without you anymore
It feels just like I never loved before

I ran around in circles
I never knew
I was only getting ready for you

It's like I never loved before
Like I never saw the sun
Or felt the rainfall on my face
It's like it's never ever been
I can't imagine life without you anymore
It feels just like I never loved before
