

100%

Phil Wickham

I'm a little scared to sing this song
'Cause I know it's coming with a cost
But You said I got to die to live
So God I'm picking up my cross
'Cause I've tasted what the world gives
The things they say that matter most
And all of it compared to You
No, it doesn't even come close

You can have it all
Every single part
Giving You a hundred percent of my heart
Anything it costs
For everything You are
You can have a hundred percent of my heart
All of my life surrendered
Jesus I'm Yours forever
Lover of my soul
Never-failing friend
I'm giving You a hundred percent

God I'll give You anything You ask
Nothing I have You didn't give me first
And I gladly give it all back
It's like trading in a star to get the universe
See me now I'm raising up a white flag
Running to You coming just as I am
I'm a living sacrifice
Laying at Your altar

You can have it all
Every single part
Giving You a hundred percent of my heart
Anything it costs
For everything You are
You can have a hundred percent of my heart
All of my life surrendered
Jesus I'm Yours forever
Lover of my soul
Never-failing friend
I'm giving You a hundred percent
I'm giving You a hundred percent

Here it is
Here it is
You can have my heart
Here it is
Here it is
You can have my heart
Here it is
Here it is
You can have my heart
Here it is
Here it is
You can have my heart
Here it is
Here it is
You can have it all

You can have it all

Every single part
Giving You a hundred percent of my heart
Anything it costs
For everything You are
You can have a hundred percent of my heart
All of my life surrendered
Jesus I'm Yours forever
Lover of my soul
Never-failing friend
I'm giving You a hundred percent

I'm giving You a hundred percent
Of my heart
Of my heart
Of my heart
I'm giving You a hundred percent
