

Children of God

Phil Wickham

Through valleys of shadow we walk unafraid
There in the battle we're lifting Your name
Standing together forever we're marching on

Though darkness surrounds there's hope in our eyes
For You are our victory, our joy and our prize
Standing together forever we're marching on

We are believers, all our hope in the risen one
And we are soldiers, we're fighting with faith and love
And we are pilgrims, on a journey to reach our home
Standing together we are the children of God

Nothing can stop us for You're on our side
Even in dying our souls are alive
Standing together forever we're marching on

We are believers, all our hope in the risen one
And we are soldiers, we're fighting with faith and love
And we are pilgrims, on a journey to reach our home
Standing together we are the children of God
We are the children of God
We are the children of God

We are believers, all our hope in the risen one
And we are soldiers, we're fighting with faith and love
And we are pilgrims, on a journey to reach our home
We are standing together, we are the children of God
We are the children of God
We are the children of God
We are the children of God
