

# Tethered

Phil Wickham

I don't want to miss the beauty  
Of heaven all around me  
Your power and Your mercy  
The greatness of Your Love  
I don't want to lose the wonder  
Of being in Your presence  
Of knowing such a friendship  
To be with You my God

Everything I am  
I throw into Your hands

I just want my life  
To ever be entwined with You  
Tethered to Your heart  
I just want my soul  
To ever stand in awe of You  
Tethered to Your heart  
Oh tethered to Your heart

What more could I desire  
What greater thing to treasure  
I'm convinced there's nothing better  
Than living in Your Love  
Caught up in the wonder  
Of being in Your presence  
Of knowing such a friendship  
To be with You my God

Everything I am  
I throw into Your hands

I just want my life  
To ever be entwined with You  
Tethered to Your heart  
I just want my soul  
To ever stand in awe of You  
Tethered to Your heart

Everything I am  
I throw into Your hands

I just want my life  
To ever be entwined with You  
Tethered to Your heart  
I just want my soul  
To ever stand in awe of You  
Tethered to Your heart  
Oh tethered to Your heart

Tethered to Your heart  
Tethered to Your heart

Pull me closer  
Take me deeper  
I want to be where You are  
I want to be where You are

Pull me closer  
Take me deeper  
I want to be where You are  
I want to be where You are

Pull me closer  
Take me deeper  
I want to be where You are  
I want to be where You are

Pull me closer  
Take me deeper  
I want to be where You are  
I want to be where You are

I just want my life  
To ever be entwined with You  
Tethered to Your heart  
I just want my soul  
To ever stand in awe of You  
Tethered to Your heart

I just want my life  
To ever be entwined with You  
Tethered to Your heart  
I just want my soul  
To ever stand in awe of You  
Tethered to Your heart  
Oh tethered to Your heart  
Oh tethered to Your heart

We just want to be where You are  
We just want to be where You are  
We just want to be where You are  
We just want to be where You are

Pull me closer  
Take me deeper  
I want to be where You are  
I want to be where You are

Pull me closer  
Take me deeper  
I want to be where You are  
I want to be where You are

Pull me closer  
Take me deeper  
I want to be where You are  
I want to be where You are

Draw me closer  
Take me deeper  
I want to be where You are  
I want to be where You are

Pull me closer  
Take me deeper  
I want to be where You are  
I want to be where You are

I just want my life

To ever be entwined with You  
Tethered to Your heart  
I just want my soul  
To ever stand in awe of You  
Tethered to Your heart

I just want my life  
To ever be entwined with You  
Tethered to Your heart  
I just want my soul  
To ever stand in awe of You  
Tethered to Your heart  
Oh tethered to Your heart
