

This Year for Christmas

Phil Wickham

Some people want diamond rings
Some people want snow
Some people want everything
Tied in strings and bows
I can't think of a single thing
For my list this year
Cause all that I'll ever need
I have right here

I got all I want this year for Christmas
Don't need no presents underneath the tree
'Cause all I want this year for Christmas
Is waking up with you right here next to me

You took me by the hand
Brought me in from the cold
You give me the kind of love
Oh, that feels like home
Every season together
I'll be there by your side
Through all of the highs and the lows
It's a wonderful life

I got all I want this year for Christmas
Don't need no presents underneath the tree
'Cause all I want this year for Christmas
Is waking up with you right here next to me, oh

Take the [?]
Take the lights on the tree
Ooh, 'cause this year for Christmas
I've got all I need

I got all I want this year for Christmas
Don't need no presents underneath the tree
'Cause all I want every year for Christmas
Is waking up with you right next to me, oh

Is waking up with you right next to me
Next to me
Right here, next to me
