

Keep me in the air, don't let me go
We can raise it higher, yeah, I know
Pure enough to breathe it's liquid gold
Weightless as desire, I'll show you, the meaning of free

Into the flame and we're never gonna die again
I want you here, I want you here with me
Born to the flame and we're never gonna leave again
I keep you near, because you're dear to me
Boy I try to be a saint, but like the devil
Lies in wait, to take you down
You raise me up, 'cos above water
We're in love

Keep me in the air, don't let me go
We can raise it higher, yeah, I know
Pure enough to breathe it's liquid gold
Weightless as desire, I'll show you the meaning of free

Don't you wanna be
Don't you wanna be
Don't you wanna be
Free?

If the land receives us I know
You'll become a tiger and I'll become a wilder thing
So let the heavens keep us, oh
The darkness doesn't need us
We can keep these fires burning

Keep me in the air, don't let me go
We can raise it higher, yeah, I know
Pure enough to breathe, it's liquid gold
Weightless as desire, I'll show you the meaning of free

Rising to the sound, it's coming for you now

Don't you wanna be
Don't you wanna be
Don't you wanna be
Free?

If the land receives us, I know
You'll become a tiger and I'll become a wilder thing
So, let the heavens keep us, oh
The darkness doesn't need us
We can keep these fires burning

Keep me in the air, don't let me go
We can raise it higher, yeah, I know
Pure enough to breathe it's liquid gold
Weightless as desire
I'll show you the meaning of free
