

# Ritual Black

Phildel

You gave it all up for the bait  
You've never been easy prey  
But, somehow along the way  
I caught you  
I've been looking like this for days now  
Funny how it grinds your faith down  
Lost you along the way

And I can't bring back something from the grave  
I know that  
I just came to see you take back everything you meant to me, me

Across that deep sea  
Calling out your name like a flood sheet  
Always won the game, release me

Pain, just a defence for your gain, poor  
Silent, now you couldn't say no  
Lost you along the way  
Dreams, nothing but emptier scenes now  
Funny how I let myself drown  
Helping you up on your way down

Oh I can't bring back something from the grave  
I know that  
I just came to see you take back everything you meant to me, me

Cause we've  
Been dragging up the deep sea  
Calling up the flood sheet  
Is rising up to see me  
Fall, fall

And I know  
Ritual black says you're not coming back, I know  
The choir in my head sing the song of the dead, down low

And I can't bring back something from the grave  
I know that  
I just came to see you take back everything you meant to me, me

Across that deep sea  
Been dragging out your name like a flood sheet  
Calling up the flood sheet  
Is rising up to see me  
Fall, fall

And I know  
I can't bring back  
Something from the grave, I know that  
Take back everything you meant to me
