

Wave Your Flags

Phidel

What do I do? What do I do
Here in the darkness with you, with you?

Sit me down, hold me back, before we crash
Give it up, skin and blood, this is love
Carry me lock to key lightning speed
Halfway, wave, wave your flags...

Cause it's speeding up
Sacrifice yourself for love
Weightless as the moon
I can't stop this taking off too soon

What do I do? What do I do
Here in the darkness with you
With you

Sit me down hold me back
Before we crash
Give it up, skin and blood this is love
Carry me, lock to key, lightning speed
Halfway back, wave, wave your flags

Have you hid enough?
Camouflaged yourself from love
Hard to make it stop
Hard to slow what's speeding up...

What do I do? What do I do
Here in the darkness with you
With you...

Sit me down hold me back
Before we crash
Give it up, skin and blood this is love
Carry me, lock to key, lightning speed
Halfway back, wave
Wave your flags

Wave your flags
Wave your flags
