# Dance With Me

**Phillip Phillips**

I have seen a sunset in the western sky
Ain't nothin' like the brightness in your eyes
And I have seen the moon reflecting in the sea
But that don't compare to how you shine on me

After everything I've seen, I rather see you smile
Cause all I really want is just to hold you for a while and be your man

So will you dance with me?
I will lead you
Give every moment that I have
Just to be near you
And when the song ends and everyone else leaves
Will you dance one more with me?

When my hands are heavy and your words are slow
Kiss my lips and tell me you won't let me go
And with every single heart beat I have left
I'll make it known you are my world and nothing less

Cause all I really want is just to hold you for a while and be your man

So will you dance with me?
I will lead you
Give every moment that I have
Just to be near you
And when the song ends and everyone else leaves
Will you dance one more with me?
Will you dance one more with me?
