

# I Dare You

Phillip Phillips

Hello my dear, not mad the stars are bright  
And if I have my way, they'll all be yours tonight  
So while the moon is high, just let me hold you close till our  
shadows get into the light  
My heart never lies

I dare you, dare you, to trust me  
I dare you, dare you, to trust me

Empty spaces filled of your worry mind  
Don't let the fear keep us from running wild, we'll be alright  
Just let me hold you close to all of your ghost in the fire  
My heart never lies

I dare you, dare you to trust me  
I dare you, dare you to trust me

Don't you worry about, you'll never be without my love, my love  
Don't you worry about, you'll never have to doubt my love, ooh  
my love

I dare you, dare you to trust me  
I dare you, dare you to trust me  
I dare you, dare you to trust me, yeah  
I dare you, dare you to trust me
