

Living It Up

Phillips, Craig & Dean

Okay, what are we doin'?

Well, I woke up early this morning
Like I do most every day
Draggin' through my daily devotions
In the same old usual way
When somewhere in between the "thees" and "thous"
God interrupted my quiet time
Leapin' off of the page and jumpin' into my heart
Came a more abundant life

I'm living it up
I've got a reason to celebrate
I'm living it up
Don't want to live my life any other way
I'm through with livin' down and out
I'm settin' my heart on things above
I've got my eyes on Jesus
I'm living it up

You can always find somebody
With another sad story to share
They can give you a million reasons
Why life has been so unfair
But life is too short to keep wastin' time
Talkin' 'bout the way it should've been
In every circumstance there's a reason to dance
There's a joy that God will give

I'm living it up
I've got a reason to celebrate
I'm living it up
Don't want to live my life any other way
I'm through with livin' down and out
I'm settin' my heart on things above
I've got my eyes on Jesus
I'm living it up

Breakin' out of my shell, I can't help myself
Gonna kick up my heels and dance

I'm living it up
I've got a reason to celebrate
I'm living it up
Don't want to live my life any other way
I'm through with livin' down and out
I'm settin' my heart on things above
I've got my eyes on Jesus

I'm living it up
I've got a reason to celebrate
I'm living it up
Don't want to live my life any other way
I'm through with livin' down and out
I'm settin' my heart on things above
I've got my eyes on Jesus

I'm living it up, yes, I am
I've got a reason to celebrate
I'm living it up
Don't want to live my life any other way
I'm living it up

Look, I'm living it up
I'm breakin' out of my shell
I'm living it up, I'm living it up
I'm living it up
I'm living it up
I'm living it up
I'm living it up

Oh, that's different!
