Went from the Ghost to the drophead  
The car look live but the top dead  
Bad bitch on my passenger, she from North Africa  
Goons in the backseat, they mopheads  
I hit the valet and they drop dead  
Million dollars in the driveway  
Rappers lookin' at me sideways  
But all this came up off the highway  
Tried to tell them niggas crime pays  
Now it's tension 'cause they didn't listen  
My neck glisten from the kitchen

Got lamb on the floor, stars in the ceiling  
Tint on the windows, it feel like I'm hidden

The car do tricks as soon as I fill it  
My money is up, same car as your idol  
The engine purr like a kitten when it idle  
You niggas is leasin' and I got the title  
The engine V12 and the doors suicidal
