

Some Thangs

Philthy Rich

I been going through some things
And don't nobody understand me, man, even my family, man
I been going through some things
Hoping my niggas stay the same, it's time to get up out this game
me
Look

My ex bitch in my DM's, said she fuckin' on my opp now
Told her when I see 'em, both of y'all gon' get knocked down
Rolls Royce Dawn through the hood, got the top down
My niggas said we headed to the top, and you can't stop now
To pass my strife, I was sittin' on the block now
Fiends still coming, they could never shut the block down
Free that nigga Smitty, free Neff, they both locked down
Free all of my niggas, too many names for me to jot down
Baby mama gettin' on my nerves, I told her not now
He said he was brother, but I guess he want my spot now
Used to be the man back in the day, but you is not now
Time for you to stand on what you when I am not 'round
Put niggas in position, but nowadays they sneak dissin'
I was really in the kitchen and took them field trip missions
Faggot bitch bitchin' cause I don't pay her no attention
But if it ain't about no chicken, bitch I ain't tryna listen
I got ties up in Richmond, I cut ties with niggas snitchin'
I ain't in no politics, I just mind my own business
I don't count no nigga pockets, I be countin' my own millions
Yeah, he say he in his bag, but he really in his feelings
Six bedroom house, and I can barely see the ceilings
On the road every week, so I could barely see my children
Young nigga, growing up I was always in detention
Kicked out of Oakland Tech for having too many suspensions

I been going through some things
And don't nobody understand me, man, even my family, man
I been going through some things
Hoping my niggas stay the same, it's time to get up out this game
