

## Something Living Here

Phish

Is there something livin' here?  
Wait! I hear a sound  
Is there something livin' here?  
Wait! It must be that sound

Down across the angled grain  
Moss piglets traverse my brain  
Stuck in the waiting room  
I been stuck in the waiting room  
Stuck in the waiting room  
I wanna go in

I twist humor to exist  
And no, I didn't ask for this  
I twist humor to exist  
And no, I didn't ask for this  
I twist humor to exist  
And no, I didn't ask for this

(I twist humor)  
(Twist humor  
No, I didn't ask for this)

I twist humor to exist  
And no, I didn't ask for this  
I twist humor to exist  
And no, I didn't ask for this  
I twist humor to exist  
And no, I didn't ask for this  
I twist humor to exist  
And no, I didn't ask for this

You should see my shiny boots  
I'm gonna sing one now for Paulie Roots  
It goes, I twist humor to exist  
And no, I didn't ask for this  
It must be that sound
