

Stray Dog

Phish

I'm like a stray dog
Loping into town, yeah
Pay me no attention as I trundle around
Punching you down
I'm gonna chase you down

I'm like a stray dog
Loping into town
Howling wind and the driving rain
Once you look closely
You'll like what you found

It's like a stray dog
Loping into town
Pay me no attention as I wander around
I'm hunting you down
I'm gonna chase you down

I'm like a stray dog
Loping into town
The howling wind and the driving rain
Once you look closely
You'll like what you found

It's over here
It's over there
It's over here
It's over there
It's over here
Over there
Over here
Over there
Over here, there, here, there

It's like a stray dog
Loping into town
Pay me no attention as I wander around
I'm hunting you down
I'm gonna chase you down

I'm like a stray dog
Loping into town
The howling wind and the driving rain
Once you look closely
You'll like what you found
