

## Things People Do

Phish

People always surprising  
The things that they do  
You think you got em' figured out  
And they'll show you what you knew  
At first they may seem rational  
But wait a month or two  
'Cause there's just no explaining  
The things people do

I had to get away  
I was losing my interest  
Instead of expanding my world  
I was just scanning pinterest  
So I left all these people  
I though that I knew  
'Cause there's just no explaining  
The things people do

I left for the road  
'Cause I needed the mileage  
Brought what I owned  
'Cause I thought it was stylish  
Well I don't miss the folks  
That I just left behind me  
'Cause there's places I'm going  
Kinda doubt they will find me

I never really felt  
That my life was in danger  
But a shot to the gut  
By the hands of a stranger  
Started me thinking  
What I already knew  
That there's just know explaining  
The things people do

Well I found a new place quickly  
I caught me a fast one  
The people 'round here  
Are the same as the last one  
So I guess I'll keep moving  
And find a new crew  
'Cause there's just no explaining  
The things people do
