

## Tide Turns

Phish

When you're lost in the darkness  
And the loneliness cuts so deep  
When every breath is suffering  
And you're longing for sleep  
You don't have to be alone  
I've still got a kind word to spare  
I've still have an ear to listen  
I've got time

I'll wait with you till the tide turns  
Yes I will  
I'll wait with you till the tide turns  
I'll wait with you till the tide turns  
Till the tide turns...

When the wolf is at your door  
And the mirror holds your nightmare  
There's no need to hide your tears  
If it's too much for you to bear  
You don't have to be alone  
I'll still always be here for you  
Together we can make it through  
We've got time, yes we do

I'll wait with you till the tide turns  
Yes I will  
I'll wait with you till the tide turns  
I'll wait with you till the tide turns  
Till the tide turns...

You don't have to be alone  
I'll still always be here for you  
Together we can make it through  
We've got time, yes we do

I'll wait with you till the tide turns  
Yes I will  
I'll wait with you till the tide turns  
I'll wait with you till the tide turns  
Till the tide turns...
