

Tell it to my face
I don't need your mails
I want you in person
Show you how I'm mourning
The spell can't be erased
Unless we share this lane
Show me how you're feeling
Dealing with the sore face

When someone mention my name, you see a ghost, huh
You wanna meet up again, just let me know now
All I need is just two minutes
I don't care about who's winning
It's your decision to make, it's not over
Until we meet up again, let's talk slow now
All I need is just two minutes
I don't care about who's winning

Peace will stop the blaming
It takes two to save this
No more cute surprises
I'm barely half alive here
Nothing lasts forever
Please don't just pretend that
You're doing me a favor
Can we clear the air now?

Ba-ba-ba, ba-ba-ba
Ba-ba-ba, ba-ba-ba

Let's fall into place
I'm missing your gaze
Please just come around now
We can reconstruct this
No one knows what's next
But it can't be this bad
Please just come on over
So we can abort this pain

It's your decision to make, I won't push ya
Or we could make it as friends and go slow now
All I need is just two minutes
I don't care about who's winning

Peace will stop the blaming
It takes two to save this
No more cute surprises
I'm barely half alive here
Nothing lasts forever
Please don't just pretend that
You're doing me a favor
Can we clear the air now?

Ba-ba-ba, ba-ba-ba
Ba-ba-ba, ba-ba-ba
Ba-ba-ba, ba-ba-ba
Ba-ba-ba, ba-ba-ba
