

# Better Days

Phlake

(Better days on my mind)  
(Better days on my mind, mind)

The water there taste amazing  
It's like another land before time  
My body's not yet in place but  
I gotta go now to be fine

Better days on my mind  
Better days on my mind  
Better days on my mind  
Better days on my mind

My batteries want a change, but  
Somehow they still keeping me alive  
When I use my imagination  
I get the goosebumps everytime

Better days on my mind  
Better days on my mind  
Better days on my mind  
Better days on my mind

The fussing is over  
Better days on my mind  
Get drunk later  
Better days on my

I, de-cided, my mistakes  
Can't, de-fine me, and my ways  
I live, every, night and day  
Like it's, hiding, a smiling face

I waste my time in the club  
Whatcha standing there for boy  
Ya gotta seize the night  
Go get it now young soldier

I waste my time like I should  
I like the dum numb loud noise  
It makes me feel alive  
I love to wait before the right moment

Better days on my mind  
Better days on my mind  
Better days on my mind  
Better days on my mind

The fussing is over  
Better days on my mind  
Let's get drunk later  
Better days on my mind

The fussing is over  
Better days on my mind  
Let's get drunk later  
Better days on my mind

The fussing is over  
Better days on my mind  
Let's get drunk later  
Better days on my mind
